## Project Title: Kimono

I want to build a multiple page website about Kimono, especially different types of Kimono. Each page should include one aspect, and I also want to have an individual page that has photos of Kimonos.

**Introduction/Homepage:** This page should summarize what Kimono is, what Kimono is made of, and when people wear Kimono.

**History:** This should be a summary of how Kimono became what it is.

- Kimono in ancient times (Edo Period and Heian Period)
- Kimono nowadays

**Textiles and Decorations:** This should talk about the fabric of Kimono and decorations on it.

- Kimono fabric production and use
- Fabric decoration techniques
- Kimono motifs

**Construction:** This should introduce different parts of Kimono with specific terms.

- Terms
- Evolution of kimono construction

**Types of Kimono:** Divide Kimono into small categories.

- For Women: such as Yukata, Furisode, Hōmongi...
- For Men

**Source:** This should just be Wikipedia Page and other photos.
