

## **Review:**

Hi Ari:

I think you did a great job! I like your choices of images and web designs, also color pallets you've chosen.

Here are some suggestions I give you:

1. I think you have a black space on the right side of the page. Next time, you can edit it.
2. In the types of Kimono, I think you can put more images on the website to show people different kinds of kimonos instead of just showing men's Kimono.
3. Typeface choice: I think you can choose a serif typeface for the body texts so that it can better differentiate from the title.
4. Maybe you can highlight some texts (such as red to highlight). Also, you can try to enlarge your typeface, so readers can be easier to read your texts.

I am looking forward to seeing your final product.
